

KABA E-Plex® 3000 Narrow Stile Pushbutton Lock

The E-Plex® 3000 electronic pushbutton lock for narrow stile aluminum glass doors eliminates problems and costs associated with issuing, controlling and collecting keys and cards. It retrofits inside trim for Adams Rite® locks 1850, 1950, 4070, 4510, 4520, 4530, 4710, 4720, 4730, 4900, 4920AN, MS 1850S, MS 1950S, and 8400 Series.

With 300 access codes per door, there are over 100 million possible code combinations for maximum security. And no wire installation eliminates wiring to or through the door, so there is no risk of pinched wires. An Audit Trail records the most recent 9,000 lock events in memory including use of the mechanical key override.

Features:

- Programming via keypad or with optional Microsoft Excel-based software
- Four operation modes
- Five different authority levels allows control of specific lock functions
- Accepts code lengths of four to eight digits
- Tamper proof battery housing for four AA alkaline batteries
- Extra heavy-duty lockset, solid cast housing, and solid cast lever or thumbturn
- Non-handed, easily changed in the field
- Standard and optional finishes

Kaba Access Control's innovative and comprehensive solutions have made them the preferred brand choice for facilities and sites – including commercial buildings, institutions, residential and government applications.
