

The HES 8300 Electric Strike: A perfect choice for retrofit into fire-rated frames

Save money, save time, and save lives with the HES 8300 Series compact fire-rated electric strike, a high-performance strike that complies with NFPA 80-07 guidelines for retrofit into fire-rated frames. Designed for quick, easy installation, the HES 8300 fits into a standard 1" ANSI/BHMA A156.115 dustbox – with little or no modification to the frame. It also offers vertical adjustability to accommodate door sag and misalignment.

Standard Features:

- Retrofits into fire-rated frames
- No cutting of frame required
- Vertical adjustability
- Field selectable fail safe/fail secure
- Non-handed
- Plug-in Quick-Wire connectors
- Five year limited warranty

Accessories for the HES 8300 include a plug-in bridge rectifier, ElectroLynx® adapter, SMART Pac II™ and a plug-in buzzer. Standard faceplate finish is 630 satin stainless, with six other faceplate finishes available. Access Hardware Supply has the HES 8300 Electric Strike in stock and ready to ship. To order, or for more information call (800) 348-2263, or visit accesshardware.com.
