

Trine Axion Premium Electric Strikes

The Universal 4850

4 Sizes . . . 1 Box . . . No Cutting

The logo for Access Hardware Supply (AHS) is displayed in a stylized font within a rectangular frame.

Trine Axion 4850, a one-half-inch thick surface mount electric strike for rim panic devices, is designed for those tight installs where an installer needs just a little more room. The 4850 features smart 12V through 24V DC electronics with play hook-up and self-adjusting surge and kickback protection. It installs securely with a patented 4 point anchoring system, with up to 6 points of attachment available for maximum security. The 4850 has 1/8" and 1/4" steel spacer plates for in-between sizes, and field selectable fail safe/fail secure options.

The Trine Axion 4850 electric strike is BHMA Grade 1 rated has been tested to 1.5 million cycles, provides a holding force of 1500 pounds and dynamic force is 70 ft/lbs. The minimal projection of the Axion 4850 stainless steel body permits this electric strike to be used for rim exit device applications where the lock side of the door and jamb area has limited space.
