1. **Prices** – THIS PRICE LIST SUPERSEDES ALL PREVIOUS PRICE LISTS. All prices may be changed without notice. All key operated lock prices DO NOT INCLUDE I/C or non I/C core(s) and keys. Prices DO NOT INCLUDE freight, special communications or insurance.

2. **Terms** – Thirty (30) days net for open accounts. Past due accounts are subject to a finance charge on invoices over thirty (30) days old.

3. **Orders** – All orders and contracts are subject to acceptance at the time received. Acceptance is indicated by the issuance of an order acknowledgment which must agree with the customer's purchase order. Prices will be honored on written quotations if the orders are received with thirty (30) days of the quotation. All agreements are contingent upon acts of God or circumstances beyond our control.

4. **Delivery & Shipping Charges** – Shipping dates cannot be guaranteed and partial shipments will be made unless the order indicates they are not allowed. All prices shown are F.O.B Destination, freight prepaid and added to invoice.

5. **Cancellation and Change Charges** – Any cancellation or change to an order for standard (or stocked) material may be subject to an additional charge of 15% net. Orders for any custom material such as special stamped padlocks that cannot be sold to another customer are not cancelable or returnable.

6. **Rush Charges** – When orders must be expedited faster than our normal lead times, they are subject to a rush charge. Rush charges will be calculated based on the cost incurred to expedite the order and the customer will be informed of any extra cost at the time the order is placed.

7. **Returns, Allowances, and Back Charges** – Returned materials must be authorized by Marshall Best Security prior to shipment to our plant. All return shipments must be prepaid. All authorized returns must be in resalable condition when received and will be subject to a restocking fee of 25%. Back charges will not be approved for any repair or replacement unless approved in writing in advance.

8. **Construction Cores** – All MBS Interchangeable core locks can be ordered with temporary construction cores. Construction cores are intended for use in restriction access to facilities during the construction period and are not intended to secure a facility when construction is complete. These cores are keyed alike and color coded. Construction cores add \$18.00 to the net price of a lock less core. See the specific lock section for detailed ordering instructions. Temporary construction cores are supplied without keys. Construction keys and control keys to remove the cores must be ordered separately.

When construction is complete, construction cores are to be properly identified by project and returned to your independent representative or the MBS office in Fishers, Indiana. A net price credit of \$14.00 will be issued upon receipt of the construction cores. Contact your independent MBS representative or the MBS office in Fishers, Indiana for a Return Material Authorization number prior to shipment.

9. **Masterkeying and Security Material** – MBS independent representatives will work with the customer to develop a customized keying system. All masterkey codes generated will remain the property of MBS and will be securely stored and encrypted to maintain confidentiality. Masterkeyed product may be ordered using industry standard key symbols.

10. **Installation and Use** – Installation instructions for any Marshall Best Security product should be carefully followed so it can operate properly. Malfunction may result from improper installation. Specifying locksets that secure both sides of a door requires reference to the applicable Building Code and the Life Safety Code. Delay in unlocking for an emergency could be fatal.

11. **Warranty** – Marshall Best Security is not the manufacturer of any of the Products. Accordingly, Marshall Best Security hereby passes through to Representative and/or end user only those warranties made to MBS by MBS's manufacturers and expressly intended by such manufacturers for pass through to Representative and/or end user.
