

For Peace, Quiet and Control, ask SARGENT

Why “listen” to SARGENT? Well, you don’t really have to . . . **SARGENT 56 Electric Latch Retraction Kits** are pretty darn quiet . . . actually really, REALLY quiet. That makes them the preferred equipment for hospitals, libraries, theaters and other places where you don’t want exit devices to sound like prison doors.

SARGENT 56 Electric Latch Retraction Kits don’t require a special power supply. That’s a pretty big deal . . . ask any installer or integrator. For real.

And in addition to remote-controlled latch retraction for high traffic egress doors, the “56” also retrofits into existing SARGENT pushbars . . . you just can’t beat the “SARGE”.

There is more to tell. For the straight skinny about SARGENT 56 Electric Retraction kits, contact Access Hardware Supply at 800.348.2263, or visit www.accesshardware.com. Access Hardware Supply makes access control easy with spot-on customer service, proven product knowledge and field-experienced salespeople.
