DESIGN FEATURES:

UL LISTED E172979

“FUNNEL-ENTRY” DESIGN:

1. EASIER WIRE INSERTION.
2. ELIMINATES WIRE STRAND HANG-UP.
3. POSITIONS WIRE PERFECTLY FOR A SINGLE CRIMP.

LARGER OPENING:

1. MULTIPLE WIRES.
2. HEAVIER WIRE INSULATION.

TEETH:

1. RAZOR SHARP ARMOR SELF-PIERCING TEETH.
2. SPECIAL FORMULATION OF METALS.

TOOLING:

1. DOLPHIN DC-4141 RACHET FULL CYCLE CRIMPING TOOL OR DC-500F RECOMMENDED HAND TOOL.

SUPER B CONNECTORS

ABLE TO CRIMP 2 TO 4 # 16 - 24 SOLID OR STRANDED GAUGE WIRE

Insulation Displacement Connectors		
Features	Advantages	Benefits
Funnel Entry Design	<ol style="list-style-type: none"> 1. Easier Wire Insertion 2. Eliminates Wire Strand Hang-up 3. Positions wire perfectly for a single crimp 4. No wire stripping Saves time 	<p>Saves time</p> <p>Saves time</p> <p>Saves time</p>
Larger opening	<ol style="list-style-type: none"> 1. Multiple Wires 2. Heavier wire insulation 	<p>Saves money</p> <p>Saves money</p>
Unique Design	Provides dependable connections	Safety
No need to cut or strip wire	Faster installation, minimum clean up	Saves time - easy to use
Special Sealant Formula	<ol style="list-style-type: none"> 1. Provided Moisture Barrier 2. Non-Curing Sealant 3. "Never flows of out Connector" 4. Will not corrode 	Securing it against moisture and oxidation
Crimping Tool	Ratchet or Hand tool DC-4141 or DC-500F

SUPER B-WIRE CONNECTORS Introduced many years ago.... Still tops in overall performance!

Attested by billions of B-wire connectors reliably joining wires in working communication circuits world-wide. The long record of superior performance of B-wire connectors manufactured by DOLPHIN COMPONENTS CORP. is the earned result of relentless quality control and high performance standards.

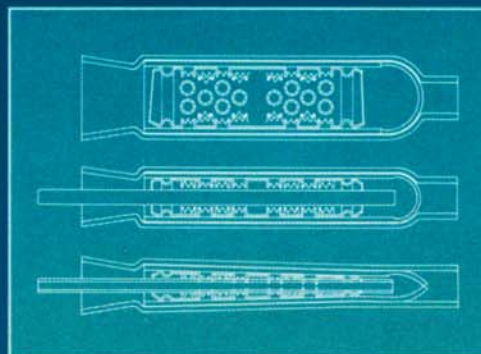

Now, with digital transmissions moving in communication circuits at kilobit rates, a good connection is not enough - wire joints must be faultless, contact noise control cannot be tolerated. Dolphin Components Super B-wire connectors provide this necessary connection integrity.

Complete Connection Reliability • Maximum Space Economy • Low Initial Cost

It's unique "Funnel Entry Design" provides many metallic connections locked in place under permanent spring compression - providing contact integrity, high mechanical strength and long constant service.
