

Related products for your Simple Access Control Solution

As a leading provider of products and services that make environments safe and secure, protecting people, property and assets is an ongoing, ever changing and vital responsibility.

Ingersoll Rand Security Technologies industry experience means that we are well placed to tailor integrated solutions, incorporating products from our wide portfolio including: Electronic and Biometric Access Control • Mechanical Locks • Door Controls
Exit Hardware • Performance Steel Doors • Service & Maintenance

Schlage AD-200 Offline Electronic Lock

The AD-200 Offline Lock can be manually programmed for basic PIN code or card access to low-risk doors such as storage rooms or maintenance closets. When programmed with a handheld device, an audit trail of events at the door can be easily downloaded via the HHD. The AD-200 Offline Lock can be upgraded to a fully networked lock in the future if the need for higher levels of security arise in the future.

Schlage ND-Series Cylindrical Lock

The ND-Series cylindrical lock is built to perform without fail. It's designed for heavy-duty traffic applications, easy to service and maintain, and with several lever styles that can accommodate multiple key systems, the Schlage ND-Series doesn't compromise on security or compatibility.

Von Duprin 98/99 Series Exit Device

Exit devices are a critical part of the Fire and Life Safety egress system and will provide safe and reliable service when properly applied and maintained. This exit device series is UL listed for Panic Hardware or Fire Hardware, and are certified to ANSI A156.3, 2001, Grade 1. *Low current return to exit switch required.*

Refer to the Von Duprin 98/99 Series Exit Devices Catalog (VD-GN-1005) for product and ordering details.

LCN 1460 Series Closer

LCN door control products integrate durability, security, ADA compliance, design and safety.

Durability—Durable, reliable, cost effective control for high traffic environments.

ADA—Easy accessibility for a positive facility experience and ADA compliance.

Security—Reliable closing to protect your most valued assets.

Design—Enhance the integrity of your interior design.

Safety—Reliable closing for Non-Hold Open and Hold Open Fire Doors.
