

THE NEW 4850-PoE PREP SHEET

**These are the recommended talking points on the 4850-PoE.
Please review before presenting.**

4850-PoE ELECTRICAL CHARACTERISTICS .260 mA @ 12DC = 3.12 Watts	ADAMS RITE 7400 @ .440 mA	HES - 9400/9600 7000 @ .450 mA
VON DUPRIN 6112 @ .600 mA / 6300 @ .500 mA	FOLGER ADAMS 310-4 @ .510 mA	RCI 0162 @ .500 mA

FOR EVERYDAY BUSINESS

Allows an installer to use a smaller power supply;

- *** More strikes on a smaller power supply. With more strikes, the extra padding counts even more. Please note that 1-2 amp power supplies are very competitive, anything larger and the price skyrockets.
- For all devices
More devices means more power problems – rim exit strikes are big power hogs – we now are able to eliminate that concern with our 4850-PoE.

FOR PoE BUSINESS

Simplicity

- The Strike can run off the power supplied to the access control/PoE system from just the network (ethernet) cables.
- No Additional power supply is needed
- Allows for more devices to be run off the PoE system.
- Increase UPS (Universal Power Supply) Up time. That is, if the power goes out, the UPS system will kick in and last longer

FOR AUTOMATIC DOOR OPENERS

- Some openers use 12 or 12 AC and have .500 mA available for the strike.
- No additional power supply is needed when they use the 4850-PoE

**AS ALWAYS: 4 SIZES IN 1 BOX – NO CUTTING REQUIRED
& 6 PIN ANCHORING SYSTEM**

THE NEW 4850-PoE
A LITTLE GREEN CAN GO A LONG WAY

**EVERY mA COUNTS IN A PoE OR
AUTOMATIC DOOR SYSTEM
THIS STRIKE WAS BUILT WITH THAT IN MIND**

TRINE®	4850-PoE	.260 mA	12DC	3.12 W
H. E. S.®	9400/9500/9600	.450 mA	12DC	5.40 W *

What will you do with the extra power

- ✦ Reduce your power supply Size to save money.
- ✦ Reduce the number of installations that need a separate power supply for door hardware
- ✦ Add more devices to your system.
- ✦ Increase UPS up time due to lower current draw.

4 SIZES – 1 BOX
TWO SPACER PLATES PROVIDE
MAXIMUM FLEXIBILITY

**Install Securely with our
Patented Anchor Pin System**

**Fits in Tight Installs
like Glass.**

NO CUTTING OF THE FRAME
