Von Duprin 6300 Series - Surface Mounted Electric Strike

Von Duprin is pleased to announce the new 6300 surface mounted electric strike. The 6300 series strike is ideal for aftermarket versatility and migrating existing openings to electronic access control. The 6300 comes in a single piece stainless steel housing and is non-handed to allow flexibility during installation. It's easy to install because it does not require any modification or alteration to the door or frame. Whether it's new construction or retrofitting existing applications, the 6300 surface mount electric strike is Von Duprin's most simple solution.

FEATURES

- Non-Handed for left or right swinging doors
- Field Selectable 12-24VDC
- UL1034 Burglary Resistant
- UL10C listed for 3 hour fire doors
