

Title:	Schlage Modular Cylinder-One Cylinder Does It All!
Date:	2010/07/02
Product:	Cylinders
Viewers:	ALL

**Never get caught on a job without the right cylinder!**

Schlage is proud to announce the introduction of its new modular cylinder that can service virtually any lock on any door with just one cylinder. The new modular cylinder from Schlage is easily adapted to fit all Schlage mortise, rim and key-in-lever locks. The modular cylinder will dramatically reduce customers' inventory and will allow distributors, dealers, and end users, flexibility and an overall cost reduction in key systems inventory.

The benefits include:

1. A key benefit is the flexibility to change over from the one type of cylinder to another (For example, from key in lever to mortise cylinder to rim cylinder).
2. Easily change finish to any of the 9 available finishes
3. Changing the mortise cylinder length from 1/8" all the way to 1 3/4"
