

Title:	Von Duprin 991/992/994 Trim Discontinuation – Follow-Up Notice
Date:	2010-06-04
Product:	VD 991, 992, and 994 Trims
Viewers:	All

As previously announced, the successful transition of the 996 as the standard trim for Von Duprin 98/99 devices has paved the way to the discontinuation of the 991/992/994 trims. With this, please take special note of the following and update your price books/catalogs accordingly:

- A. 991, 992, 994 Trims:
 - 1. While we estimate that the inventory will take us through July 1, 2010, these trims will be **available only while supplies last**.
 - 2. Upon depletion of inventory, customers with these trim orders will be notified and asked to convert to 996 trims.
 - 3. Repair and replacement of products will be handled according to Von Duprin warranty terms and conditions.

- B. New available options for 996 trims:
 - 1. Request to Exit RX996. For use with 98/99 rim, mortise, surface and concealed devices. Specify RX prefix and applicable list add will apply.
 - 2. Door Thickness Application extended from 1-3/4" to 3-3/4". This option will continue to be processed as special order but steps are being undertaken to make it standard.
 - 3. Knob Design (K, K-DT, K-BE, K-NL). Pricing will remain the same as the 991 trims.
 - 4. Specials previously available to the discontinued trims will be evaluated as they are requested.
