

National Guard Products, Inc.

November 30, 2010

Subject: LEED® Green Building Rating System Credits

The LEED (Leadership in Energy and Environmental Design) Green Building Rating System® is a national standard for developing high-performance, sustainable buildings developed by the U. S. Green Building Council.

Our products contain the following percentages of recycled materials qualifying for LEED® MR Credit 4; Recycled content:

	Post Consumer Recycled %	Pre-Consumer Recycled %
Thresholds - Aluminum and Bronze	75%	0%
Thresholds – Stainless Steel	0%	0%
Rubber Ramps	0%	0%
Gasketing with Aluminum or Bronze Retainers	56%	0%
Gasketing with Stainless Steel Retainers	68%	0%
Self Adhesive Gasketing	0%	0%
Metal Edge/Astragal sets (Steel)	70%	0%
Lite Kits & Louvers (Steel)	75%	0%
Aluminum Louvers	75%	0%

LEED® MR Credit 5; Regional Materials is not applicable to our products as there is no specific extraction location identifiable for our raw materials.

NGP Lite Kits and Louvers are factory finished using powder coating technology which does not produce volatile organic compounds (VOCs) in the application process, and does not give off VOCs in use on the job or when recycled.

LOCATION OF MANUFACTURE:

National Guard Products, Inc.
4985 E. Raines Road
Memphis, TN 38118
