### LEED Certification – U.S. Green Building Council

This notice is in response to the use of several of our products to help achieve Leadership in Energy & Environmental Design (LEED) certification. It references the LEED Green Building Rating System for New Construction & Major Renovations (LEED-NC) as published by the United States Green Building Council (USGBC). The following table outlines the Stanley brands and products that support MR Credit 4.1, 4.2, and MR Credit 5.1:

Brand	Product	% Recycled Content *
Best	Mortise Locks Cylindrical Locks	33%
Stanley Closers	Closers	30%
PHI	Exit Devices	35%

\*Average recycled content based on LEED formula and Industry recycled material averages as of the time of this notice.

#### LEED Category: Material and Resources (MR)

##### **MR Credit(s) 4.1 and 4.2 Recycled Content: Post Industrial**

Product contains post industrial content as defined by Guides for the Use of Environmental Marketing Claims, 16 CFR 260.7 (e) (available at [www.ftc.gov/bcp/gmrule/guides980427.htm](http://www.ftc.gov/bcp/gmrule/guides980427.htm)) and therefore qualify for this credit.

##### **MR Credit(s) 4.1 and 4.2 Recycled Content: Post Consumer**

Product contains post consumer content as defined by Guides for the Use of Environmental Marketing Claims, 16 CFR 260.7 (e) (available at [www.ftc.gov/bcp/gmrule/guides980427.htm](http://www.ftc.gov/bcp/gmrule/guides980427.htm)) and therefore qualify for this credit.

##### **MR Credit 5.1 Regional Materials: Manufactured Regionally**

The Mortise, Cylindrical, and Exit devices are manufactured in Indianapolis, Indiana, 46250. If this facility is less than 500 miles from the project site, they qualify for this credit.
